

INTRODUCTION.

I work for a large Global Risk Management company which has several leading International Oil & Gas clients operating in the Southern Iraq Oilfields. We provide the security for the clients and the associated ongoing training for the expatriate security teams . We do have many capable candidates that fill existing roles but one of the clients has specifically asked for an SASC (WO or above to fill one of the training roles).

In light of this I would very much like to attract the right calibre of candidate capable of fulfilling the following:

- Role – Training Manager (hands on including authoring training policy and implementing governance).
- Duration – permanent contract.
- Start Date – February/March 2011.
- Rate – GBP330 per day.
- Rotation – Six Weeks on/Six Weeks Off (only paid whilst in country).
- Location – COB & subsequently Client Main Base Camp, Rumaila Oilfield, Basra, Southern Iraq.
- Free Flights/Food/Accommodation/Insurance.
- Essential – full career with SASC (WO or above) with military operational experience. Must have served run out date and be clear from the military.
- Preferable – commercial experience in Iraq/Afghanistan/hostile or challenging environments. Ideally, must have experience of range construction and be reasonably current.
- CVs to Tony Morell Tony.Morell@control-risks.com and available to discuss on cell phone +44 782 4709 277 or landline +44 1948 871 388.

I look forward to hearing from you.

Yours sincerely

Tony Morell
